4.1 The right of access to basic water

Everyone has the right to have access to sufficient water. Midvaal Local Municipality is committed to promoting sustainable access to a basic water supply by subsidising the ongoing operating and maintenance costs of a basic water supply service.

4.2 Consumer Responsibilities

The right to basic water supply services come with a corresponding responsibility, namely, to use water services responsibly and with due care.

4.3 User Charges (Retail)

Charging for water services is essential in order to generate sufficient funds for operating, maintaining and investing in water systems but at the same time recognising the need for affordability. Sound business principles within a sound subsidy frame work are therefore essential. This includes good governance, sound accounting, adequate provision for depreciation, adequate spending on maintenance and replacement of assets, effective and efficient use of resources and income (including subsidies) which covers expenses.
