INTEGRITY MANAGEMENT STRATEGY

Midvaal Local Municipality

25 Mitchell Street

Meyerton

Including anti-fraud and anti-corruption measures

A. INTRODUCTION

In order to be a well governed municipality that fulfils its obligations and delivers services to the community, we need effective, committed leadership and a professional, competent workforce. We also have a responsibility to manage our entrusted resources responsibly and to combat all forms of fraud, corruption and misconduct.

We strongly believe that none of the above will be possible without a strong ethical culture that enables all parties to focus on the right things for the right reasons. For this reason, Midvaal is committing to managing its organisational integrity more actively.

The South African Local Government Anti-Corruption Strategy of 2016 requires all municipalities to strengthen their resilience against corruption by implementing the Local Government Integrity Management Framework. This Midvaal Integrity Management Strategy aligns with the Integrity Management Framework, but it has been adapted to Midvaal's specific circumstances and needs.

The Strategy was developed after an Ethics Management Maturity Assessment and an Ethics Risk Workshop was conducted in the Municipality.

B. STRATEGIC OBJECTIVES

Following a review of the existing integrity management maturity, the municipality developed an integrity management strategy. We believe that by focusing on the following 5 key objectives we will improve the culture and manage our ethics risks.

- 1. Set a strong ethical tone with clear standards;**
- 2. Develop a professional workforce, in a respectful workplace;**
- 3. Actively manage operational fraud, corruption and ethics risks;**
- 4. Ensure effective consequence management; and**
- 5. Work with communities and service providers.**

1. Set a strong ethical tone with clear standards (Leadership)

Midvaal is committed to strong ethical governance. To avoid us becoming complacent about our ethical standards we believe it is necessary to be more explicit about what we stand for and what we expect of each other. We therefore commit, as the political and administrative leaders of the municipality, to developing a clear values-statement for the municipality, and to ensure that this becomes embedded in our language and our actions. Our values will be supported by our policies, and communicated to all our stakeholders in a way that conveys the importance that these values have to us.

2. Develop a professional workforce, in a respectful workplace (People)

We believe that if we are focussed and effective, there will be fewer temptations to be involved in unethical actions. We therefore aim to get the right people into the organisation so that they are competent and confident in fulfilling their responsibilities, and proud of the work they do. We also believe that when employees are treated fairly and feel respected, they are more inclined to give their best to the organisation and the community. We therefore aim to develop respectful personnel practices and creating a fair and supportive work environment.

3. Actively manage operational fraud and corruption and ethics risks (Processes)

Midvaal has a strong focus on risk management which extends to risks related to fraud and corruption. We do however believe that we have a responsibility for additional oversight and diligence in high risk areas. Where people have discretionary power, the temptations are numerous and we must help to keep each other, and our external stakeholders, honest.

4. Ensure effective consequence management (Accountability)

We understand that we will not be able to prevent all occurrences of misconduct, fraud and corruption. Where incidents do occur, we want to ensure that we find out about it so that we can rectify the situation. We owe it to our communities to ensure that those who steal or abuse resources and position are held accountable, and that we recover losses. We also believe that we can prevent large incidents by consistently managing discipline and acting swiftly and fairly as soon as the need arises.

5. Work with communities and service providers (External stakeholders)

Creating an ethical Midvaal is dependent on a mature, transparent and accountable partnership between the municipality and the community. The municipality must build trust with the community and ensure we create open and responsive communication avenues. At the same time, the morality of the municipality is only as strong as that of the community, and we will therefore aim to partner with community organisations to promote a healthy, moral society.

1. **Objective 1: Set a strong ethical tone with clear standards**
