PUBLIC NOTICE – ENGINEERING SERVICES

WATER METER AUDITING, VERIFICATION AND INVESTIGATION

Midvaal Local Municipality (MLM) wish to inform residents that **On Point On Time Solutions** has been appointed as the professional service provider to carry out water meter auditing, verification and investigations within the Midvaal area. The assigned water meter auditors will be travelling to different residential and commercial locations.

The water meter auditors will require access to a yard/garden water tap to do the verification and testing of water meters. The water meter test will not have any impact on the water supply to the resident. Please be advised that it is a Municipal By-Laws offence to prevent / evade an officially accredited service provider to carry out a task. Members of the public who do so and harass staff will be penalised. Your cooperation and support will be appreciated.

The On Point On Time Solutions auditors will be wearing clearly marked clothing with identification. To verify the identity of the team please contact the Midvaal Engineering Department on 016 360 5819 during office hours, 07:30 – 16:00 and 072 770 6825 or 066 317 9803 after hours.

Attached is a list of the dedicated water meter auditors, for your ease of reference.
