

PUBLIC NOTICE

ROAD CLOSURE: DWARS STREET, HARZENBURGFONTEIN

Notice is hereby given of a road closure at the intersection of Dwars and Eike Road in Hartzenburgfontein to allow the Municipality to reinstate the road.

The Municipality has commenced with the site reinstatement. However, the excess groundwater flow has caused delays to complete the reinstatement.

The Midvaal team has made provision to allow groundwater to flow out of site into the receiving stormwater drainage before complete reinstatement can be achieved. The Municipality is currently monitoring how the groundwater is subsiding.

Due to the above reasons the road will remain closed until further notice.

Alternative roads that can be used during the road closure to access Dwars str are as follows:

- Bloemkom Street via Loes Road and,
- Wattle Road.

We thank you for your patience during the execution of the works as indicated above. Everything possible will be done to keep the downtime as short as possible

Yours in service excellence,

Original signed

Mr. Anton Groenewald
